

## HD-SDI Adapter RoHS

The HD-SDI (High-Definition - Serial Digital Interface) adaptors enable the Digital View SVH-1920 LCD controller card to support single or dual HD-SDI connections, thus providing a highly featured alternative to expensive HD-SDI monitors or external adaptor devices.

Capable of driving high definition video data over long cable distances HD-SDI applications are growing to include Digital Signage; Video Cameras; Digital video recording/play back devices ; Digital Set top boxes; Video projectors; High definition video systems; Medical video; Multi-media PC applications etc.

The adaptor is designed to sit side-by-side with the SVH-1920 using a parallel ribbon cable to maintain the low profile required of today's professional class LCD monitors.

Fully compliant with the SMPTE 259M-C and SMPTE 292M standards. The adaptors feature LED indicators for channel status and the dual channel version provides menu or hot-key switching between the inputs.

### SUPPORTED MODES

NTSC / 480i60 (525i60)  
PAL / 576i50 (625i50)  
480p60 (525 p60)  
576p50 (625 p50)  
(HDTV) 720p 50  
(HDTV) 720p 60  
(HDTV) 1080i 50  
(HDTV) 1080i 60  
(HDTV) 1080p 25  
(HDTV) 1080p 30

### CUSTOM ENGINEERING SERVICES

Custom input timing, panel timing, splash screen, OSD Menu, conformal coatings, layouts, etc.
